Subject: Top 20 Region 6 OCS Operators With Highest Number of Active Outfalls

Sam,

As requested...

Attached is a list of Region 6 OCS Operators for holding current/active outfall coverage, along with their number of active outfalls in order from the highest to the lowest.

I ran the list based off the traditional/historical top operators (i.e., Shell, Chevron, ExxonMobil, BP, etc.), with a random number of operators selected after that.

In addition, I provided the following numbers to Isaac Chen, at his request, a week ago.

From 10/01/2012 to the Present:

- Total number of eNOIs filed: 7,795
- eNOIs terminated: 4,570
- Remaining active eNOIs: 3,225
